

SLURRY HOG DISSOLVACRETE™

THE REVOLUTIONARY POWERFUL NON-TOXIC CONCRETE REMOVER

Dissolvacrete is the first non-corrosive cleaning compound designed specifically to remove build-up from cement manufacturing, processing, handling and transportation equipment. The chemical does the work for you – and your equipment comes out clean, without any chipping or hammering.

Dissolvacrete's non-corrosive formula means that even sensitive engine components, including radiators, can be cleaners without fear of damage. Dissolvacrete is safe on virtually everything. Use it to remove cement, concrete, Limescale, and all other mineral deposits.

Dissolvacrete can be applied with a low-pressure foaming sprayer, or brush and bucket. One application of the product will remove light build-up. Moderate to severe build-up may require regular applications over a period of days or weeks. Dilutions will vary depending on preference and frequency use.

STM™

Specialised Tools & Materials

WHY DISSOLVACRETE

REMOVE CEMENT

Easily remove heavy cement build-up in just a few applications

REMOVE GREASE

Remove moderate grease and oil residues for quick clean-up

COST EFFECTIVE

Save by eliminating labour-intensive cleaning methods and costly repainting

SAFETY COMPLIANT

HMIS 0-0-0 ratings. Equipment can be cleaned safely by any operator

NON CORROSIVE

Paint, steel, composite components, polished aluminium, chrome and glass are safely cleaned and protected

BIODEGRADABLE

Exceeds EPA standards for biodegradability

SOLVENT FREE

Dissolvacrete is VOC exempt and complies with air quality standards

VERSATILE

You can use it on manufacturing, transport, transfer and processing equipment
